SAXONIA

TEXTILE PARTS

SAXONIA: Your partner for ribbons of every type.

A synonym for quality, SAXONIA has been a leading international supplier of parts and components for crochet machines for many years now.

SAXONIA: Your full-line supplier for:

- Patent needles, both stamped and wire, optimised for each application
 - Compound needles
 - Pattern guides
 - Guide needle blocks
- Patent needles tailored exactly to each application area with a high level of stability and uniformity, guarantee a consistently high quality and productivity.
 - SAXONIA knitting elements fulfil all customer demands regarding both quality and cost-effectiveness. It goes without saying that our guide needles, patent needles, pattern guides and guides needles block are manufactured to the highest standards in terms of rounding, dimensional accuracy, repeat accuracy and thickness.
 - The quality and performance of the materials we use, specialised tooling systems and manufacturing processes fitted exactly to the geometry of the warp elements provide the basis for a high level of repeat accuracy and precision.
 - Perfect edge rounding for gentle processing of even the most delicate yarns.
 - Extremely wear-resistant through chrome coating and special hardening and coating technologies.

Perfect stamping technology combined with perfect rounding – the hallmark of SAXONIA.
